## PRELIMINARY AMENDMENT

ASSISTANT COMMISSIONER FOR PATENTS WASHINGTON, D.C. 20231

SIR:

Prior to examination on the merits, please amend this application as follows:

## IN THE CLAIMS

Please cancel without prejudice claims 1-31.

Please add the following new claims 32-34 as follows:

32. A device for fixing a part and a part support for mounting said part by use of photocuring adhesive, said part and said part support joined via an intermediate member formed of resin substantially transparent to light, comprising:

- a light generator configured to generate light used to cure the photocuring adhesive;
- a light guide configured to gather said generated light and illuminate said photocuring adhesive along a path passing through said intermediate member;
  - a filter located along said path between said light guide and said intermediate member
